

# Bibliography and References

Compiled by E. Paul Morehouse

The references listed are all, except for the U.S.G.S. topographic maps, located in The Ohio Genealogical Society Library in Mansfield, Ohio. The titles are organized first by general and Ohio references, then by individual counties in alphabetical order.

## Call Number Column

The OGS Library uses a unique call number system. On all Ohio books, we have omitted the prefix OHIO, the Dewey Decimal System number 977.1, and the county designation. The alphanumeric part of the call number indicates the type of book. For instance, CM designates a cemetery book.

## Author Column

Authors are listed alphabetically by surname within the county. Abbreviations were used for organizational names.

## Title Column

Complete titles are listed as found in the publication. Information found in brackets

is not part of the actual title; it further defines the contents of the publication.

## Map Column

A plus sign indicates that maps are found in the publication. A minus sign indicates no maps are found. A plus-minus combination indicates a partial mapping effort; some of the cemetery sections may not be mapped, while others are.

## Index Column

Publication indices may pertain to cemeteries, townships, volumes or surnames. The symbols used are similar in meaning to the Map column.

## Date Column

Years or year ranges are as stated. Otherwise, they are undated or unknown.

## Alpha Column

Indicates an alphabetic sort by cemetery, township or surname. The symbols used are similar to the Map and Index columns.

OGS Call #	Author	Title	Map(s)	Index	Year(s)	Alpha
