Companions

You can order INDIVIDUALLY, in COMBINATIONS or in MULTIPLES. If you are ordering COMBINATIONS or MULTIPLES it is important to understand the distinction between a PRIMARY piece and its COMPANION.

Primary medallions are each attached to their own unique story, their own QR code and their own serial number. Duplicate medallions are called companions. These are for customers who want multiple copies or versions of the same exact medallion story. For example, a large custom medallion for installing on a tombstone, and an additional open-face medallion for a photo frame at home.

These companion medallions have the same QR code as the primary medallion, and will share its serial number as well. The Medallion's story is built under that serial number, and all of the companion medallions will connect to it.

Companion pieces are available at 50% off their matching product's retail price. Companion pieces must be ordered when the Primary Medallion is ordered. You cannot order Companion pieces after you order has been submitted.

Multiple PRIMARY pieces can be purchased simultaneously in the event that you are interested in obtaining multiple story profiles rather than duplicates of a single story.

The Ohio Genealogical Society is proud to have this association with Memory Medallions. We trust you will find this a quality product with a unique approach to retaining your family's story. For more information on this product, you can visit the website www.memorymedallion.com

Order your medallion from the Ohio Genealogical Society at memorymedallion@ogs.org.
