Bernice McClester had a dream to publish a book about the one-room schools of Carroll County, Ohio. Unfortunately, she never saw this come to fruition, but her assembled research in this collection is organized and ready for use.

Scope and Content: Based on a 1917 *Summary of Second Monthly Report of Carroll County Public Schools*, Bernice McClester located any and all information available about the one-room schools of Carroll County, Ohio to include but not limited to: the exact location of the school; the current status of the school (i.e. razed, dwelling, farm storage, etc.); dates the school was in operation; teachers and terms served; class lists and rosters; photographs of the school building; photographs of school students; personal memories and anecdotal stories collected in the form of surveys and interviews of living alumni of these schools; school souvenirs or programs; newspaper clippings; and more.

Some schools have more representation than others as they were either in existence longer or contemporary people were able to provide more first-hand knowledge and/or relics from the school(s) they themselves attended.

System of Arrangement: The organization of the collection was kept in the original order established by the creator which was by township.
