Title: Early Ohioans' Residences from the Land Grant Records

Author: Mayburt Stephenson Riegel

Publisher: Ohio Genealogical Society, Mansfield [now Bellville], Ohio, 1976

Location: Ohio

At the time OGS member Mayburt Riegel compiled her index of pre-1820 Ohio land grants, the State Land Office records were under the Auditor of State. They since have been transferred to the archives of the Ohio History Connection, Columbus. Twenty-four volumes were searched for this work. These include the Cincinnati Land Office, Refugee Tract, Steubenville Land Office, Chillicothe Land Office, Canton-Wooster Land Offices, Zanesville Land Office, Marietta Land Office, and the Donation Tract Lands. Provided are the name of the first owner, the date of the land entry, the Range-Township-Section, the volume/page number within the particular land office, and the place of residence at the time of purchase. The Ohio land entries are available on microfilm at the Ohio Genealogical Society and many other research facilities.

Keep in mind that the land entry is the first step in a purchase. The final step, the patent, is available online at www.glorerecords.blm.gov – and these two documents should both be examined. The person who made the entry is not necessarily the individual for whom the land was patented. It should also be noted that Mrs. Riegel's card file in the Ohio Genealogical Society's collection is important because many settlers made multiple entries. Only the first one is provided in her book. This book is provided only for OGS members. It has been reprinted numerous times by OGS and should be available for purchase in the www.ogs.org store if the user would like a hard copy of the work for their personal library.

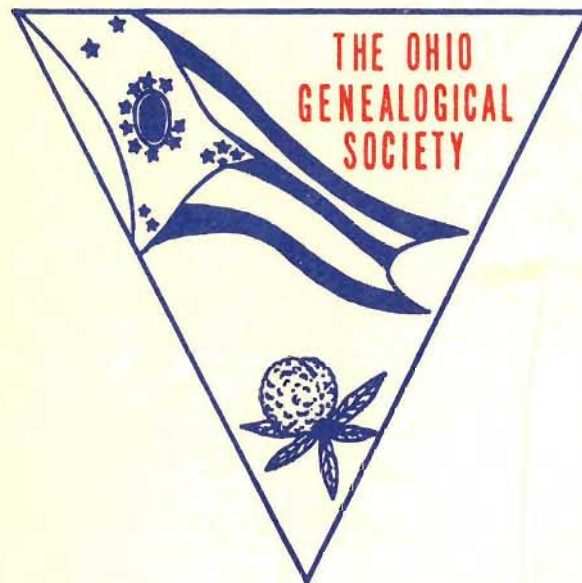

This material may not be reproduced, displayed, modified or distributed without the express prior written permission of the copyright holder. This work is here provided for the personal use of OGS members consistent with its mission to meet the educational needs of its members and the general public through the acquisition, preservation, and dissemination of genealogical and historical information.

INTRODUCTION

The Ohio Land Grant records are in the custody of the Auditor of the State of Ohio and are available in that office in Columbus. However, some are in the Archives of the Ohio Historical Society. This publication is a collection of some of these original records.

Written primarily to aid genealogists, this book may give a clue about where ancestors lived before coming to Ohio. The place of residence was usually given in the old registers, and herein a code is used for the residence.

Twenty-four volumes of records have been searched. These books are not indexed individually; however, the volumes in the Ohio Land Office may be found indexed in the General Card Index File there.

The first mention of each name, in each place of residence and in each Land Office is listed. In cases where additional information seemed needed, location of land is also given, such as section, township and range. The information is listed according to Land Office.

The Zanesville Land Office records from 1812 to 1820 are included. Now in the Ohio Historical building, these are a collection of old sheets of paper - faded and worn.

Also included is a rare list of the Donation Tract (land given to any man willing to carry a gun, reside on his farm and be ready to protect the approaches to Marietta). The land location is coded and covers from 1790 to 1820.

The faded ink, the old style hand-writing and the hours of work made some errors inevitable. This is presented as accurate as possible. It is hoped that your ancestor is included.

CHILLICOTHE LAND OFFICE

Chillicothe Land Office records are mostly in the Archives of The Ohio Historical Society in Columbus, Ohio. The most complete for searching is their #391, *Register's Ledger*. The first six volumes are indexed below, giving the first mention of each purchaser, the volume number and page, and the place of residence (see code).

The dates of each volume are as follows:

A 1801 - 1803
 B1 1804
 B2 1807 - 1808
 C 1805 (This volume remains in Ohio Land Grant Office.)
 D 1806
 E 1809 - 1811

Also indexed is a *Tract Book*, very faded and worn, still in the Ohio Land Grant Office, in the Ohio State Auditor's Office, located in the State Capital Building. This is listed:

OLO 1801 (This is the only year with additional listings.)

All below are in #391, *Register's Ledger*, unless OLO is listed as the book.

MARIETTA LAND OFFICE

The original Land Company records are now in the Archives of The Ohio Historical Society in Columbus, Ohio. When land was put up for sale, the sales were recorded as in any Land Office. All #417 Registers are #A or #B. Journals for nearly the same period which give additional listings are numbered 417 C below.

A few more names were found in the Land Grant Office in the State Auditor's office. These are listed below by the letter "O" and the page number from *TRACT BOOK & ENTRIES - U.S. MILITARY DISTRICT - REFUGEE LANDS - W. OF THE MIAMI & BETWEEN THE MIAMIS - CONGRESS LANDS - DONATION TRACT - REVERTED LANDS - ORIGINAL PROPRIETORS OF THE OHIO COMPANY PURCHASE.*

Following are the earliest listing for each purchaser, the year, the book and page number, and the code for the place of residence.

DONATION TRACT LANDS

Donation Tract Lands were given by the Ohio Land Company to males (18 and over) who promised to carry a gun and protect the approaches to the Marietta settlement from the Indians. Each tract was for 100 acres and in some particular instances a man received more than one allotment. The period covered from 1790 to 1820 when the Indians were still to be feared.

The original hand-copied records are in numerous lists copied before 1820 in the large volume *TRACT BOOK & ENTRIES - U.S. MILITARY DISTRICT - CONGRESS LANDS - DONATION TRACT - REVERTED LANDS - ORIGINAL PROPRIETORS OF THE OHIO COMPANY PURCHASE*. This volume is in the Ohio Land Grant Office of the Auditor of the State of Ohio.

These 100-acre plots are laid out along the creeks or near the settlements and are coded according to land locations.
