Scope and Content:

William Robert Montgomery Houston, was born 13 Nov 1922 in Mansfield, Richland Co OH, the son of William T. and Frances (Hursh) Houston. He died on 24 Aug 2011 in Tucson AZ, age 88. He was preceded in death by his wife Marguerite Labau (Browne) Houston. They had three children, Erling Houston of Kensington MD, Elisabeth McCaleb of Tucson AZ, and Selby Houston of Louisville KY. Dr. Houston was graduated from Mansfield Senior High School in 1940 and Oberlin College. He got his medical degree at Western Reserve Medical School, Cleveland, in 1948. He interned at the Methodist Hospital of Brooklyn and completed residencies at the Illinois Eye and Ear Infirmary and the New York Eye and Ear Infirmary. He was an ophthalmologist with offices at 456 Park Avenue West, Mansfield, for over 40 years, taking over the practice of his uncle, Dr. Erling Smedal. Dr. Houston was a Captain in the US Air Force during the Korean War. He served on the Mansfield City Schools Board of Education from 1962 to 1965 and was President of the Mansfield Symphony from 1965 to 1968. He founded the Ohio Genealogical Society in 1959, with his cousin Louise Krause, and with two other physicians, Dr. Elizabeth Reed and Dr. David Massa. Dr. Houston taught in New York City for many years and there met his wife, Marguerite Labau Browne. They married on 25 Apr 1968 at St. James Episcopal Church in New York City. “Labau” was certainly a member New York's elite society as a great great granddaughter of Cornelius Vanderbilt, once the richest man in the US (although her LaBau ancestor was not an heir to the funds). Dr. Houston did work on many of his wife's genealogical lines.

The primary families cited in the collection are Bush, Crabbs, Houston, Hursh, Montgomery, Nottingham, Steeg, and Wharton. These are all Dr. Houston's ancestors and he spent much of his time on these, publishing books on most of them. His wife's Bergasse, Browne, LeBau, and Vanderbilt lines are also treated in some detail.

There are also some historical items of general interest. There is a series of letters of James Purdy, an early Mansfield businessman, dated from 1849 to 1862. One file contains Richland County Bridge Fund Orders for 1842 to 1855. A large store ledger, certainly from Olivesburg, Richland County, is unidentified. Perhaps it connects to the Olivesburg General Store, still in operation in that community? There is also a scrapbook kept by Rev. Henry Whiteman 1811-1890, which contains early material on the Methodist Church in Ohio.

Access: No restrictions

Provenance: Donated to the Ohio Genealogical Society in three portions by the three children of William R.M. Houston, MD, in 2012. We primarily worked with Erling Houston of Kensington MD. Nearly 1000 books were donated to the OGS Library and these are in a separate inventory in the library acquisition files. Just over 100 boxes of Richland County court records (primarily common pleas packets) and some ledgers were given to the OGS Archives. It will be a few years before they are all unfolded and processed. In addition, some items in the two Mansfield homes and the Arizona home were sold in an estate sale. Sunda Peters, Missy Derrenberger, both of OGS, purchased several British books and donated them. A cousin, Jon Houston, of Lucas OH, purchased some manuscripts, including the Helen Manners Collection, and donated this to OGS. Mr. Houston acquired and retained many of the large, original Houston family portraits that lined the stairway and were featured throughout the homes. Dr. Houston had acquired genealogical research material of other researchers – Helen Manners of Pittsburgh PA; his cousin Louise Krause of Mansfield OH; and cousins Raymond and Nellie Dent of Mansfield OH. The Manners Collection is highly identifiable and each file is labeled in this inventory. Dr. Houston had only one surname (LeBau) in common with Miss Manners and the collection is therefore intact. Dr. Houston had many lines in common with Louise Krause and they worked together on genealogical issues frequently as well as founding the Ohio Genealogical Society. We have not tried to figure out which items were in Miss Krause's collection and only labeled them as such if the specific file was labeled that way. Louise actually outlived Dr. Houston and was in attendance at the memorial service for Bill and his wife, although visibly impaired from a stroke (could not speak). When Louise's house was broken apart as her health declined, it had been moved to Bill's garage. He had not begun to touch the material although we (OGS) didn't know which boxes were which when we hauled items to the library. Neither researcher had much of a filing system. Genealogical items were found in every corner. A very small amount of material also came from the Dents and is intermixed. The collection of an uncle, Dr. Erling Smedal, mostly Norwegian lines, are also included. The three Houston children were hauled from cemetery to cemetery as youngsters but did not acquire the hobby of their father. They retained copies of the various family genealogies that Dr. Houston authored and a few photographs but none of the research material. Dr. Houston served as editor of Ohio Records and Pioneer Families magazine for over twenty years. ORPF was a publication of the Ohio Genealogical Society (1960 to 2012). If the correspondence or article submissions appeared to be for ORPF and not related to Dr. Houston, this material was pulled and merely incorporated into the OGS surname and county files in the library for the benefit of other researchers. There were also hundreds of rolls of donated microfilm. Notable in this were court records of Somerset Co MD and Accomack Co VA. These have been incorporated into the general OGS library collection.
